

PARENT Q&A: VISITING AND TAKING STUDENTS OFF CAMPUS

September 22, 2020

TAKING YOUR STUDENT OFF CAMPUS

While we know you all miss your children, we would still like to limit students going off campus as much as possible.

- ***What if our student has an important medical appointment?***
Please contact Health Services to discuss any medical appointments. Our team will help you make plans for these appointments.
- ***Can we take our student out to dinner for a special occasion?***
We ask that families order takeout or delivery from local restaurants and make use of sites on campus such as outdoor picnic tables and benches. We understand that cold winter weather is approaching, and we will continue to evaluate our ability to open our buildings to families.
- ***Can we take our student to local stores like Walmart for supplies?***
Please pick up supplies for your student separately and bring them to campus instead of taking your student along to Walmart.

VISITING SHATTUCK-ST. MARY'S CAMPUS

- ***Can our student spend the night in a hotel with us? What if the hotel is the Inn at Shattuck-St. Mary's?***
At this point, we are not allowing students to leave campus on overnight visits to hotels except in the case of overnight COE travel with the School.
- ***Can we come into the dorms or buildings?***
Parents and families are still not allowed into the dorms or academic buildings at this time. The dining hall also remains closed to outside visitors at this time.
- ***Can we tour campus or meet with our student's teachers?***
Please contact our Admissions Office to arrange for a campus tour ahead of your visit. Similarly, please contact individual teachers to arrange a socially distanced meeting ahead of your visit.
- ***Can we watch our student's sporting events?***
Currently, this depends on the sport. Masks and health screenings are required of all spectators for hockey and soccer games. At this time, only two family members may enter the ice rinks to watch their student's hockey game. Spectators are allowed at the outdoor turf field for soccer games, as long as spectators wear masks and socially distance. We will provide further information about soccer games in the Dane Family Field House and figure skating exhibitions at a later date.
